

We are taxed \$1.50 per telephone line per month. E-911 isn't up and running, yet we have to pay that. Plus, we have to pay for the numbers that go on our mail box, changing from a rural address to numbered. Yet those numbers are for the property, not for the person. If the person with those numbers move, they can't take the numbers that they have paid for. Remember the Boston Tea party?...I agree with E-911, But not with having to pay before you receive services, and then can't take the numbers that you HAD to buy, if you moved!!...
